

Global Leaders

in banking technology transformation & operations

Providing Premium Wealth Management Transformation Services

TEMENOS
THE BANKING SOFTWARE COMPANY

SERVICES PARTNER
OF THE YEAR
2016 & 2017

Our **Implementation** process in more detail

TechMahindra | SOFGEN helps clients to drive growth and efficiency through the implementation of the Temenos WealthSuite; a scalable front-to-end wealth management platform designed to empower business so that wealth managers can invest and manage complex portfolios to get the highest returns.

Wealth Management transformation projects are more than implementing a new system that increase performance and revenue growth. It also provides a great opportunity to optimize the technology operations through implementation of DevOps.

EXPERTISE

Through our experience in implementing Core Banking and Wealth Management Systems, TechMahindra | SOFGEN has expertise that allows us to transform your business.

KNOW-HOW

We assess your system and business processes to develop a deep know-how to best support your business and accelerate time to market with minimal disruption.

PROVEN TRACK RECORD

We industrialized the upgrade process by leveraging proven and standardized methodology and automation framework front to back for Temenos WealthSuite.

INCREASED AGILITY

We help establish a digital revolution where building, testing, and releasing software can happen rapidly, frequently, and more reliably.
