A SNEAK PEEK AT TODAY'S HEALTHCARE SOLUTIONS 

Low Cost, effective "Precision Services" and "Proactive Patient Care" have become the norms of today's Health Care Industry; however disparate systems and disconnected processes pose a major challenge to providers engaging with their patients in their care journey.

OUR APPROACH 

Tech Mahindra's CareNxt Solution provides a connected end-to-end Patient Journey by revolutionizing patient experience, reduced hospital re-admissions and providing post acute care to the patient.

PROBLEM'S REALITY

LACK OF A UNIFIED PLATFORM

NEED FOR A PROACTIVE APPROACH TO PATIENT ENGAGEMENT

NEED FOR REAL TIME ASSESSMENTS OF PATIENTS

OUR SOLUTION 

Diligently designed leveraging the power of Salesforce Health Cloud, Field Services Lightning and Einstein Analytics to provide a connected care management solution that enables not just the 360° view of patients but also to effectively manages appointments.

It's Time To Shake Up The Status Quo with CareNxt

- 360°View of Patient through "Single Pane of Glass" built on top of Health Cloud, Field Services and Analytics Modules
- A dynamic dispatcher / scheduler engine (Salesforce Field Services Lightning), that brings in efficiency and can alter the schedule in real time or near real-time
- A mobile solution that is accessible on the go
- Remotely monitor certain patients – patients who are not high risk and can be offered a lower number of personal visits and can be managed remotely using technology
- Interact with the eco-system and place orders that is driven by a workflow for approvals without having to communicate on the telephone – more process driven

OUR SOLUTION CAN SAVE THE DAY... 

BENEFITS

- Insightful Analytics
- Reduced Patient Re-admissions
- HIPAA Compliant Platform
- Easy to use, Scalable and highly secure cloud based solution that can be accessed from anywhere, anytime

WHAT DIFFERENTIATES US?

- Easy to setup, configure, allowing for faster rollouts
- Consulting experts from HCI
- Service providers for Global Healthcare Providers
- Domain Experts focussed on Healthcare
- Partnership with Salesforce
