

MANAGED SERVICES

Today's unprecedented volatility has given rise to unforeseen challenges, which has been disruptive to all of our businesses.

As always, we at Tech Mahindra have our firm ground during this global health crisis, to reassure our Partners in assisting them to pursue your business goals. So you don't have to do it alone.

We are looking to be your preferred partner of choice in supporting your staffing requirement for different Engineering, Testing and Quality Assurance needs.

Due to COVID-19, many of customers who has base in Asia & Europe are not able to send their team to support product launch in US. We want to offer engineering staffing where our resources can be part of their team during this time and then take this to longer duration.

Our offering include lab & field skillset engineers with long term & short terms rates

Thorough Background Check done prior to on-boarding to ensure integrity

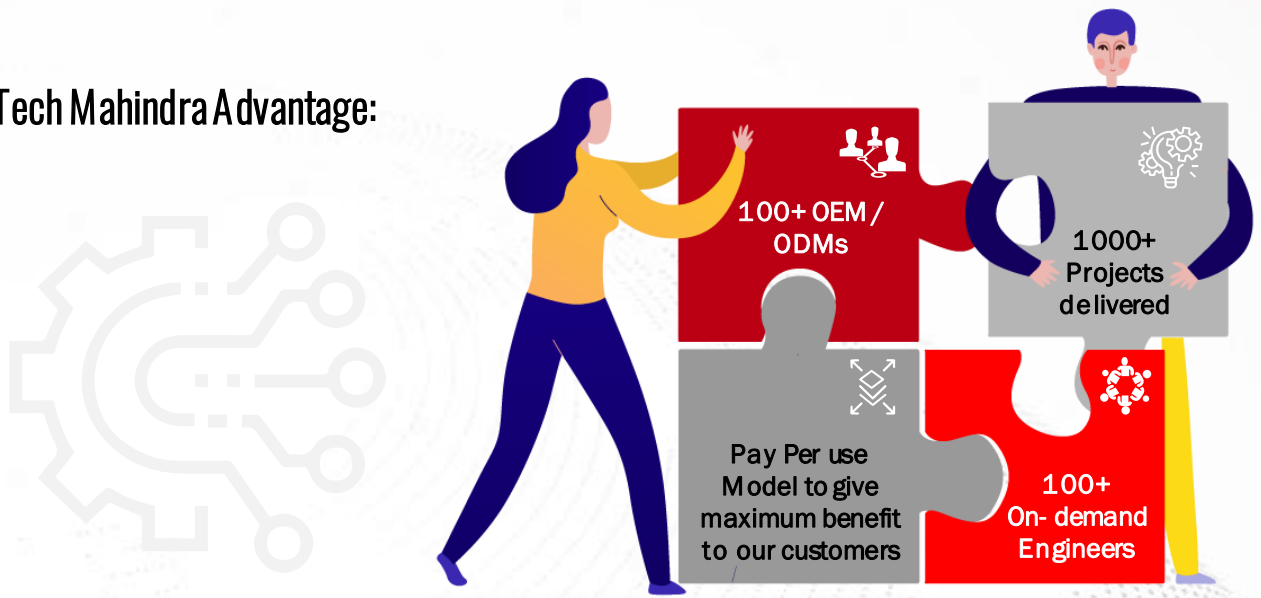

Our resources are experienced in carrier process and certification

Highly Customizable Payment Method
