Tech Mahindra brings life and speed of thought to FHH's Data

Fine Hygienic Holding – The largest hygienic tissue producer in MENA region and amongst the largest in the world leverages Oracle Autonomous Datawarehouse to significantly scale up their analytical capability & speed of thought as part of their digital journey.
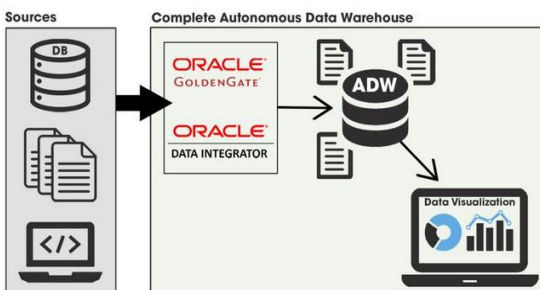

✓ Customer Challenge

- Replace traditional On-premise Data Warehouse
- Integrate with Digital Transformation Journey
- Address evolving end user requirements in terms of real time data access and best in class dashboards & reporting
- Meet Security requirements

✓ Tech Mahindra role

- Implement Autonomous DW Cloud and migrate the existing legacy Oracle Data Warehouse
- Implement and Configure Data Integrator Cloud Service
- Re-Architect DW Schema on ADW & optimize the Data Architecture which gets data from various Cloud and On-Premise sources.
- Re-architect and Migrate all ETL ODI Packages from On-Prem to ODICS including Code Adaptation
- Leverage OIC for HCM to On-Prem Apps integration (EBS Payroll & ERP, Time and Attendance Systems)
- PaaS for SaaS Extensions built on Visual Builder Cloud Service (VBCS): Time store, Business Travel

✓ Customer Benefits

- **Successful Go-Live, Jan 2021**
- Tech Mahindra has successfully implemented this project
- Leverage the power of OCI & Oracle Autonomous Date Warehouse
- Autonomous data pipeline, data model, data warehouse, data catalog, self-patching, self-tuning, self-securing
- Best in class data preparation for dashboards and drill-down analysis, real-time connection and more.
- Unsolicited public reference of the customer.

"

Incredibly proud to tick off the 1st Milestone in the 2021 strategy as we migrate all to the cloud as we move to way beyond IPO platforms and systems for FHH. We went live as one of the first companies in the region and within EMEA with the Oracle Autonomous Data Warehouse (ADW). 2021 and beyond all data, data science, AI, ML will all reside in a secure DW. Business benefits are many but jobs that would take 9 hours now take less than 50 minutes !!!!! Superbly planned, tested and executed by the Oracle team and the team from Tech Mahindra", says, Yahyah Pandor, CIO, Fine Hygienic Holding.
