

Tech Mahindra Solutions to help companies manage COVID-19 related planning disruptions

## Supply Chain Risk Assessment

Tech Mahindra's Business Process, Technology consulting and Procurement Operations Management capabilities and Technovations (Digital and Disruptive Technologies), all being orchestrated as a single entity to provide one stop shop Source-2-Settle solution

### Business Challenge

Given the pandemic

- What is the impact on my vendors and impact on their business and which are the affected geographies?
- Are there alternative vendors from whom I can source my ingredients?
- How can I shortlist the buyers scientifically?

### Solution

Tech Mahindra's Digital Procurement Solutions **Powered by SAP Ariba** (Cloud based Spend Management Software) makes it possible to assess the current state of supply chain, identify and quantify supply chain risks and deliver Supply Chain Risk Assessment to cover Supply sourcing risk through the following steps:

- ✓ Receive the Supplier Data
- ✓ Cleanse the data
- ✓ Develop Risk Report
- ✓ Collaborate with risk mitigation team to quickly close gaps

### Tech M Digital Procurement Solution- Supplier Risk Assessment

Deploying AI enabled vendor selection to identify alternate sources for ingredients within time frame for a particular geography with Real time and dynamic visibility in the Sourcing process  
Equip the buyer with meaningful data pack for effective negotiations with suppliers
