WHO WE ARE?

TECH MAHINDRA IS A COMPANY WITH PURPOSE FOR SUSTAINABILITY, NOT ONLY IN BUSINESS BUT ALSO BEYOND IT.

Driven by the purpose of endowing the society by creating imperishable future.

• To be rated amongst the Top-3 sustainable organizations within India.
• Focused responsible business growth
• Focus on enhance operational eco-efficiency
World Recognitions

**Carbon Disclosure Project 2020**
The only Indian IT company to score double ‘A’ in CDP Climate and CDP Water 2020.

**Dow Jones Sustainability World Index 2020**
One amongst only 3 companies from India to make it to the DJSI World Index 2020

**DJSI Emerging Markets Index 2020**
One of only 11 Indian Companies to be part of DJSI Emerging Markets Index 2020

**RobecoSAM 2020**
Included in the RobecoSAM 2020 Sustainability Yearbook.

**Telecom Industry Association**
Awarded “Gold” rating by TIA (Telecom Industry Association) accredited by ANSI (American National Standards Institute)

**Sustainalytics**
Leader in Sustainalytics with 99 percentile, & an overall ESG Score of 84

**ECOVADIS**
Awarded Highest ‘Gold CSR Rating-2019’ by EcoVadis with 94 percentile

**FTSE4Good Index Series 2020**
Constituent of FTSE4Good (Financial Times Stock Exchange-Russell Group) Index Series 2020

**Morgan Stanley Capital International**
Rated BBB in MSCI (Morgan Stanley Capital International) with an ESG quality score of 7.5

**Awarded by ISS**
Awarded Prime status by ISS
The standalone report is prepared as per the Integrated Reporting Framework which is published by IIRC.

The disclosure on Natural Capital is in conformance with the Climate Change Reporting Framework issued by the Climate Disclosure Standards Board (CDSB).

The report is aligned to include the recommendations of the Taskforce on Climate Related Financial Disclosures (TCFD).

The GRI Standards are the first global standards for sustainability reporting. The performance of the company in terms of achieving its strategic objectives and outcomes is reported using the GRI Standards.

Assurance of sustainability disclosures by KPMG (external third party).
Sustainability Policy

Tech Mahindra’s undeterred focus on good corporate governance is strengthened by our commitment to Sustainable Development. We aim to follow and promote sustainable business practices and to co-create sustainable business value for our stakeholders to achieve their sustainability goals. We believe that environmentally sustainable business operations will empower us to create a sustainable future.

Through the policy we shall contribute to development of a Sustainable future for our Business by:
• Making workplace sustainable
• Leveraging innovative green solutions and technologies
• Collaborating with Customers and partners to develop sustainable solutions to solve ecological problems
• Promoting Sustainability in Supply Chain

Tech Mahindra as a global IT services & consulting company, recognizes the impacts of its business operations on the 3 key pillars of Sustainability viz People, Planet & Profit. Tech Mahindra makes continuous efforts to optimize efficiency across the environmental, social and governance framework of the company.

Sustainability is a long-term issue that will require decades of persistence. At Tech Mahindra, we are committed to pursue plans that will have long-term impacts on the communities and will lead to a balance between sustainability and overall business profitability.

Materiality Assessment Process
Issues Stakeholders Identified

At Tech Mahindra, we undertake materiality as one of the critical processes in identifying and prioritizing the most pertinent issues. We review the progress of our material matters annually after discussions with our stakeholders and also update some of the aspects of materiality matrix if needed.

In identifying our Stakeholders, we consider impact on:
- Revenue
- P&L
- Business Continuity
- Brand Value
- Operating Cost
- Compliance & Regulation
- Business Growth

External stakeholders includes-
- Customers,
- Partners & collaborators,
- Academic institutions
- Suppliers & vendors
- External users of systems
- Government & authorities
- NGOs, local communities
- Regulators
- Society at large
- Investors & shareholders

Internal stakeholders includes-
- Organization facility/Location
- Department Heads
- Associates

The materiality topics are identified and aligned after the inputs of stakeholders and peer benchmarking. Our material topics are aligned with roadmap targets, policies, procedures, risk register, strategies and BSC.
Stakeholders Identified and Material Issues....

Collaborators & Partners
- Innovation & Digitization
- Business Model
- New Services and Platforms
- Credit Worthiness

Investors & Shareholders

Stakeholders Engagement and Roadmap

Engagement with the stakeholders helps us understand their explicit and tacit needs that inform our strategy and operational decisions. We follow a robust process for engagement with both internal and external stakeholders based on the need and context. We adopt various methods to ensure that we understand stakeholder’s needs and concerns. We also effectively work towards addressing these needs.

Roadmap- Our materiality topics are aligned and dully approved by the respective department heads. The performance of relevant personnel is linked to the Balance Score Cards and KRA’s. The targets have been set by the department heads based on materiality issues. Environmental, strategy and people related risks were evaluated in terms of likelihood of occurrence and its impact on business.

For more on engagement, please refer to page 45 & materiality risks on page 62-73 of Integrated Report FY 19-20

For more on roadmaps, please refer to page 48 onwards of Integrated Report FY 19-20

Our Journey

2015

- Leader in CDP Supply Chain “A” rating
- 1st time made it to DJSI under both Emerging Markets & World category
- Ranked 3rd in top 100 Asian companies
- Channel News Asia Sustainability Ranking
- Included in RobecoSAM’s “The Sustainability Yearbook”
- Gold Rated at CII Sustainable Plus

2016

- Listed in Dow Jones Sustainability Indices (DJSI)
- and rated “A
- Won ASSOCHAM Award
- Constituent of the FTSE4Good Emerging Index
- Green Marshals won the M&M Harish Mahindra Memorial Trophy
- Rated Gold in CII Sustainability Plus Corporate Assessments

2017

- Listed as ‘Rising Star’ in the CDP’s India Leaders
- Member of UNGC
- CDP Global Supplier A List
- FTSE4Good Emerging Index
- Winner of the Mahindra Group Grand Master Sustainability Award

2018

- Made it to DJSI World Ranking & DJSI Emerging Markets Index
- World Leader for Supplier engagement on Climate Change by CDP
- Listed as a ‘Rising Star’ in the CDP’s India Leaders
- Emission targets approved by SBTi
- Awarded Prime status by ISS-oekom, our sustainability performance among the best 10% in the sector
- Signatory to UNGC
- Constituent of FTSE4Good Index Series
- Achieved ‘Silver CSR rating’ by ECOVADIS
- Constituent of FTSE4Good Index Series

2019

- DJSI World Index & Emerging market
- Silver Class distinction in the DJSI Sustainability Yearbook
- Listed as ‘Rising Star’ in the CDP’s India Leaders
- Member of UNGC
- CDP Global Supplier A List
- FTSE4Good Emerging Index
- Winner of the Mahindra Group Grand Master Sustainability Award
- Awarded Prime status by ISS-oekom, our sustainability performance among the best 10% in the sector
- Signatory to UNGC
- Constituent of FTSE4Good Index Series
- Achieved ‘Silver CSR rating’ by ECOVADIS
- Constituent of the FTSE4Good Index

2020

- Only Indian IT company to score ‘double A’ in CDP Climate & CDP Water 2020.
- Amongst only three Indian companies to be included in the DJSI World Index.
- One of eleven companies from India in the Emerging markets category
- One of the top seven global companies in the “TSV IT services & Internet Software and Services” segment
- Constituent of FTSE4Good Index Series
- Awarded Highest ‘Gold CSR Rating’ by EcoVadis with 94%.
- Made it to DJSI World Ranking & DJSI Emerging Markets Index
- World Leader for Supplier engagement on Climate Change by CDP
- Listed as a ‘Rising Star’ in the CDP’s India Leaders
- Emission targets approved by SBTi
- Awarded Prime status by ISS-oekom, our sustainability performance among the best 10% in the sector
- Signatory to UNGC
WHAT GOT US HERE!!

CHANGING CLIMATE
- Scope 1 + 2 reduced by 3.10% against FY 2019 and 6% against baseline year FY 2016
- Reduction of 23683+ MTCO2e emissions through Renewable energy
- Supporters of TCFD and Caring for Climate

WATER STEWARDSHIP
- Recycled more than 590 million liters of water in FY 2020
- 1 mn liters of ground water level recharged through Rain Water Harvesting plants in FY2020
- 5.4% reduction in water intensity (kl/employee) against FY 2019

ENERGY UTILIZATION
- Increase RE from 1.77% (in baseline year FY 2016) to 17.60% this year
- Energy intensity reduced by 4% against FY 2019 & 24.03% against baseline year FY 2016
- Reduction of 6000+ MTCO2e through LEDs, occupancy sensors, AC sensors and efficient equipment

NEW TERRAIN
- Reduction in Paper Consumption by 21% as compared to previous year FY 2019
- Planted 26,000 trees in FY 2020
- 92% of waste reused / recycled / upcycled/ sold to recycler

COVID-19 has made businesses realize the importance of adopting strategies which will deliver innovative solutions without adversely affecting the environment. Our commitment towards going carbon neutral, conserving, and deploying resources efficiently will help us to accelerate our transition to a low carbon economy while creating sustainable value for our stakeholders.

" "

- Sandeep Chandna

INDUSTRIAL IMPACT
- Virtualized 30,000 servers saving more than 1 lakh MTCO2e
- Audited and assessed 66 suppliers and conducted workshops for 80 key suppliers till FY 2020.
- Joined SBTi Business Ambition to support reduction of emissions & hold further increase to 1.5\(^{o}\) C.
Making Supply Chain Sustainable

Tech Mahindra recognizes that our suppliers are independent entities; however, the business practices and actions of a supplier may impact on or reflect upon Tech Mahindra.

Sustainability is deemed to make significant contribution to company’s success, and suppliers play a major role in this.

We bind all our suppliers to the following social, ethical and environmental minimum standards of conduct and encourage each supplier to adopt practices with preferred and favored standards.

We actively engage with our key suppliers for making our Supply Chain sustainable.

Suppliers must share our commitment to best practice, continuous improvement, and collaborative approaches, and commit to our requirements as per the SSCM Supplier Code of Conduct.

OUR SUSTAINABLE SUPPLY CHAIN MANAGEMENT POLICY INCLUDES:

- Seek high standard performance from our key suppliers through SSCM questionnaire and Supply Chain Code of Conduct.
- Deliver social and environmental benefits for Tech Mahindra, our suppliers and the broader community, by encouraging practical and effective social, ethical and environmental responsibility by our supplier.
- Encourage our suppliers to make available cost-effective, environmentally and socially responsible products and services.
- Create other benefits for our company, such as reduced costs, improved risk management, enhanced quality, and product or service innovation.

SSCM-Supplier Code of Conduct  Sustainable Supply Chain Management Policy
Supplier Performance review

- We evaluate and review performance for supplier’s targets (both quantitative and qualitative) taken on ESG aspects and their future plans.
- We look ethical and human right practices and beyond compliance at their connect with their employees, how they communicate, details of compliance processes and polices, capacity building and awareness on green and environment.
- We evaluate our suppliers on the basis of their transparency in reporting their sustainability details publicly and their participation in indices like CDP, CDP Supply Chain, DJSI etc.
- We prefer suppliers who
  - Set environmental/social targets
  - Report publicly on these indicators
  - Conduct independent audits against appropriate standards or certification schemes.
- We ensure that all our suppliers are aligned to the minimum social, ethical and environmental standards of conduct set out in the Supplier Code of conduct and encourage them to adopt our preferred and favored standards.
- We encourage our Suppliers to track and reduce GHG emissions and encourage Sustainability practices.
- While reviewing we encourage vendors to use increasing amount of recycled and recyclable content into making of new products to support progress towards circular economy.
Observations & Recommendations
Supplier Performance Review Feedback on

**Good Points**

- **Code of conduct and workplace management:**
  - Workplace management policies
  - Training/Induction program
  - Written labor policy in place
  - Written Diversity/equal opportunity for employment policy
  - Proactive in learning/development for employees

- **Occupational health & safety:**
  - Written safety & health policy
  - Strictly following health & safety checklist for employees
  - Conducting safety related training for employees

- **Environment management:**
  - Written environment policy

**Focus Areas**

- Tracking GHG emissions (Scope 1 & 2) for operation
- Reporting the emission on global platform
- Establish the environmental targets & objectives to improve environment performance
- Set up sustainability target & goal in order to minimize impact on environment.
- Should have a written BCP policy
## Risk Management at Tech Mahindra

</thead>
</table>

| Who Manages | Enterprise Risk management Team (Risk officers & Heads of Business Units) headed by CRO and Risk Management Committee |

| How Manages | **Approach:** Bottom Up approach  
**Through:** Risk Register  
**Internal Process:** Critical risks prioritized reviewed with Feedback and guidance form Senior Leaders assessment report is updated. Mitigation **Strategies and Business Contingency Plans developed Monitored by:** Corporate Auditing team |

Chief Risk Officer and the Chief Sustainability Officer are engaged through a structured process to deliberate on possible risks and opportunities from Technology-Economic-Media-Political-Legal-Environmental-Social perspective

### Risks

- Indoor Air Quality
- Carbon Tax
- Employees Health Risk
- Fuel & Energy Tax
- Regulatory Change/ Visa Risk
- Global Economic Risk
- Currency Risk
- Occupational Health & Safety
- Natural Disaster
- Climate Risk in Supply Chain
- Water Quality & Security Risk
- Competition Risk
- Privacy Risk
### Sustainable Development Goals

<table>
<thead>
<tr>
<th>SDG prioritized and identified</th>
<th>Project implemented and impacts of action</th>
</tr>
</thead>
</table>
| **SDG 3 Good Health and Well Being** | - Relief work during COVID 19 by graduates from Tech Mahindra Foundation (TMF) ‘Healthcare Academies’  
- Makers Labs (R&D centers) developed an AI enabled Chatbot & a healthcare App to assist government & citizens during Covid-19  
- Tele-health services for ‘ArogyaSetu’, a mobile application developed by Government of India during COVID-19  
- ‘Health ATM’, a digital health kiosk, developed by Tech Mahindra to enable affordable healthcare for all  
- ‘Your Dost’-online wellness platform to support for emotional difficulties |
| **SDG 4 Quality Education** | - Education for Skilling and School Education at Tech Mahindra Foundation ensure quality education to youth and children from urban marginalized sections of society  
- Shikshaantar, our teacher capacity building program ensures quality education for children to constantly evaluate and introduce new teaching and learning methods and have better learning outcomes among children in primary schools. |
| **SDG 5 Gender Equality** | - Inclusivity, pillar of TMF’s CSR programs is a cross-cutting theme across our skilling and school education programs  
- 50% of the beneficiaries of the CSR interventions are female. This is part of commitment to gender equality and empowerment of women & girls. |
| **SDG 6 Clean Water and Sanitation** | - We are constantly working with our suppliers on effective water management through predictive AI model and development of New product and services that help reduce operational water consumption, predict water availability and prepare better for water related impacts |
| **SDG 7 Affordable and clean energy** | - By enabling technologies like AI, IoT, 5Getc, we are bringing efficiency in the use of energy  
- Renewable energy efficient solutions are removing inefficiency & enabling reliable energy  
- ‘Microgrid as a Solution’ enables easy access to sustainable energy for communities  
- IoT-based solution ‘Connected Solar Plants’ can connect solar plants globally, and helps in forecasting production, monitoring substations, analyzing real-time trends and graphs, auditing and reporting energy production. The plug-and-play device support sends timely alerts and notifications during critical events to avoid any inadvertent incidents. |
| **SDG 8 Decent Work and Economic Growth** | SMART Academies of TMF are catalysts to furthering the principle of assuring a dignified living to young beneficiaries. Youths are trained from socio-economic less privileged backgrounds in various specialized skill courses and assisting them with job opportunities |
| **SDG 9 Industry, Innovation and Infrastructure** | GAiA, is our open source AI platform to solve business and environmental problems  
IoT based Micro grid As A Service to promote Sustainable living integrated with Smart Grid  
CAPE - Renewable energy projects for improving community housing, lowering CO2 emissions, reducing energy poverty, generating savings for communities, and developing the local economy through employment generation |
## Sustainable Development Goals

<table>
<thead>
<tr>
<th>SDG prioritized and identified</th>
<th>Project implemented and impacts of action</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>SDG 10 Inequalities</strong></td>
<td>• Equal access to opportunities is critical to reduce inequalities. TMF facilitates the employment of the youth after providing them training in specialized vocational courses. This enables the Foundation to remain committed to achieving the greater good for the communities while alleviating economic inequalities</td>
</tr>
</tbody>
</table>
| **SDG 11 Sustainable Cities & communities** | • In-house Smart Solutions like Smart Street Light, Smart Waste Management Systems, Smart Meter, and Smart Parking can be managed remotely through a smart city portal using Unified Monitoring and Command Centre (UMACC)  
• Smart Building Management solutions help in managing energy, efficiently within buildings and also help in reducing energy |
| **SDG 13 Climate Action**     | • Developed by Tech Mahindra, #AI4Action, global collaborative community of thinkers, tinkerers, innovators and researchers from educational institutes and corporations focused on solutions to tackle climate change.  
• AI-powered ACUMOS platform helps addresses environmental challenges impacting the world. It provides access to, participants to access, build, share and deploy AI-powered applications to tackle climate changes.  
• We are signatory to Caring for Climate and are supporters of TCFD  
• Our commitment to reduce our Scope 1 and 2 emissions by 22% until 2030 and 50% until 2050 is approved by SBT  
• Our employees are advocating the use of eco-friendly products to protect the environment and ensure a sustainable future.  
• Our organization wide initiatives like ‘3-4-3 for Individual Social Responsibility’, ‘Ride for Pride’ etc., and the current ‘work from home’ are ensuring carbon neutral future |
| **Partnerships for Goals**    | • Our Collaborative approach to address some of the global challenges like health care, climate change, inequality etc. is accelerated by partnering with government, NITI Aayog and global organization like UNGC, CDP etc. (as evidenced during the Covid-19 Crisis), industry, academia and thinkers (as in the case of climate action)  
• Our Innovation across the globe is facilitated through Makers Labs (our R&D centers), and powered through partnership and collaboration ecosystem to develop sustainable and inclusive solutions for the future.  
• We have partnered with University of Sydney where students are working on projects across areas like community development, sustainability, law, technology, farming, banking and health. Our Partnerships work on the foundation of trust and is based on models that are scalable and sustainable in the long run.  
• TMF works in partnership with 139 NGOs to create an atmosphere and ecosystem of collaboration, cross-learning, mutual benefit of partners and communities alike. |
Making Sustainability Personal

We have increased our volunteer hours participation by 93% from **8581 hours** in FY 2019 to **16633 hours** in FY 2020.

- Go-Green through CNG service
- Terrace Gardening (To grow own food)
- Bamboo product & paper bag stall
- Awareness session by Greenpeace
- Sapling distribution on Earth day
- World Environment Day
- Swachh Bharat Abhiyan
- Awareness session on Water conservation
- Green food festival
- Free PUC check up camp
- Plantation Drive
Promote Biodiversity

• Tech Mahindra is committed to protecting the natural resources spread across its campuses.
• We protect 81 birds including lovebirds, fantails and swans in our Hyderabad campus with objective to increase awareness of the associates on Biodiversity
• There are no IUCN Red List species or national conservation list species in the vicinity of our locations.
• Conducted painting contest to raise awareness on Biodiversity
• Conducted awareness session on plastic pollution disturbing aquatic life
• Conducted green quiz on biodiversity theme in order to aware associates
• We target to plant 165000 trees in next 5 years
• To promote bio diversity we have increased our tree plantation by 16% from 22197 in FY 2018-19 to 25934 in FY 2019-20
