Connected Experiences.

UNLOCKING THE POWER OF CLOUD

The promise of the Cloud is alluring with constant innovation and extracting the full potential of the cloud requires an expert team with best practices, frameworks and accelerators that help unlock the power of Cloud.

Businesses today demand more agile cloud-based services while multiple industry surveys have highlighted the dramatic nature of cloud, that is sometimes challenging if not implemented with right sizing, right architecture and right approach.

In addition, the potent promise of emerging technologies like AI and Machine Learning makes it imperative for CIOs to leverage new age technologies or risk falling behind the market.

How can enterprises unlock the promise of the cloud and reap benefits of new age technologies while balancing associated risks?

Tech Mahindra and Google Cloud help you answer this challenge.

ADDRESSING THE CLOUD CONUNDRUM

Tech Mahindra's Google Cloud Platform based offering help enterprises achieve key business imperatives as they transform their business with cloud journey:

Balancing Growth with Innovation

As enterprises seek to expand their scale, they are forced to allocate key talent on non-core areas leading to decreased focus on innovation of their core business. This means less resources available to adopt cutting edge technologies that can give big impacts such as AI and Machine Learning.

Enabling Operational Scalability

Organizations are under constant pressure to maintain consistent performance levels even as demand spikes and falls in an unpredictable manner. Often, the existing infrastructure is expected to support new and larger demands which requires a more robust infrastructure than the existing setup.

Providing a Seamless User Experience

CIOs are being judged on their ability to provide a seamless experience to their users. Emphasis is on self-service, prompt responses and absolutely minimal downtime. And, as user preferences evolve, IT is expected to provide a complete IT stack that supports users across devices and platforms that they want to use.

TECH MAHINDRA – GOOGLE PARTNERSHIP

- 5+ Years of Partnership
- Google Cloud Partner
- Strategic partnership with Google for Co-Creating – Co-Branding Enterprise grade solutions
- Dedicated COE focused on Google Cloud services
- 1000+ Google Cloud Trained and Certified resources

Google Cloud Partner

TECH MAHINDRA -GOOGLE CLOUD SERVICES PORTFOLIO

Cloud Infrastructure Services
- Cloud Strategy
- Cloud Transformation & Migration
- Workplace Productivity

Cloud Application Modernization Services
- SAP on GCP
- Cloud Application Integration
- DevOps & Microservices

Cloud Managed Services
- Cloud Optimization
- Cloud Security, Risk & Compliance

Big Data Analytics
- Cloud Analytics
- Data Management & Modernization

New Age Innovation Solutions
- Solutions covering IoT, Analytics, AI
- GAiA 2.0

OUR GOOGLE CLOUD TRANSFORMATION EXPERIENCE

Accelerate growth with a full spectrum of enterprise Google Cloud Services powered by our proven accelerators, frameworks and solutions

Built the AI Driven Vendor Selection solution leveraging Google Cloud for a Tier 1 US Headquartered Aircraft Manufacturer

Application Modernization of a Vendor & Budget Management Tool leveraging the Google Cloud native capabilities for a Biotech Company in US

Virtual Showroom digital solution leveraging Google Cloud PaaS and SaaS offerings for a Multinational Automobile Manufacturer in South Africa

SOLUTIONS ON GOOGLE CLOUD

INTERNET OF THINGS

- Remote Patient Monitoring
- Precision Agriculture
- Industrial Asset Monitoring
- AR & VR Solution

ANALYTICS

- Computer Vision Based Inspection
- Deep data mining & knowledge discovery system

ARTIFICIAL INTELLIGENCE

- AI Driven Vendor Selection
- L'AILA - AI driven Legal Assistance
- Cognitive Signature Detection & Verification

OUR CLOUD ACCELERATORS

mPAC™ Managed Platform for Adaptive Computing Hybrid Multi-cloud Platform	**MAC** Migration Accelerators to Cloud	**iCOPS** Intelligent Cloud Subscription & Operations Services
TACTiX Tech Mahindra Actionable Intelligence Expert AIOps Tool	**FixStream meridian** AI Ops Analytics-Visualization, RCA, Predictive	**Blue Marble** Tech Mahindra Business Services Integration Platform Microservices Acceleration Framework
ADOPT Agile DevOps Platform	**Passport NxT** Business Value Framework	**GAiA** Open Source AI Platform

THE TECH MAHINDRA EDGE

✓ Well proven, award winning Cloud Assessment and Migration framework and accelerators

✓ Multi industry scalable solutions built on Google Cloud suite of products

✓ Solution factory in India

✓ Deep technology experience leveraging our SI legacy

✓ Industry & Domain solutions and capabilities to help companies embark on their cloud journey
